

Student assistant position, Center for Humanities Computing

The Center for Humanities Computing, School of Culture and Society, Aarhus University, invites applications for a student assistant position, with an expected start date of 1 June 2026. The position is embedded in the centre's ongoing research activities and is connected in particular to the Golden Array project cluster, which develops large-scale, multimodal representations of Danish cultural heritage data.

The student assistant will contribute to projects concerned with the organisation, enrichment, and analysis of digitised cultural heritage materials. Tasks include data curation, annotation, and archival processing, alongside exploratory analytical work on textual corpora. This may involve thematic coding, preparation of data for computational analysis, and participation in the early stages of a study of Danish sermons written during periods of national crisis.

The Golden Array project cluster seeks to model cultural-historical change by integrating extensive textual and visual datasets with advanced computational methods, including foundation models and representation learning. The work therefore unfolds in a research environment where close reading, annotation practices, and computational approaches are brought into sustained dialogue.

We are looking for applicants with a general interest in digital and computational cultural heritage research and a careful, attentive approach to working with textual data. Experience with data handling, annotation, or digital archiving is an advantage; exposure to, or curiosity about, quantitative text analysis will be considered a strength.

It is a requirement that you must be enrolled as an active student at a Danish higher education institution.

Further information about CHC can be found here: <https://chc.au.dk/>

Workplace: Nobelparken, Jens Chr. Skous Vej 3, Aarhus C

Working hours: 8 hours per week

Employment period: From 1 June 2026 until the completion of the education.

For further information, please contact Kristoffer Nielbo at kln@cas.au.dk.

Salary and terms of employment

In accordance with the current collective agreement between the Danish Ministry of Finance and HK STAT.

Aarhus University's ambition is to be an attractive and inspiring workplace for all and to foster a culture in which each individual has opportunities to thrive, achieve and develop. We view equality and diversity as assets, and we welcome all applicants.

About Arts

The Faculty of Arts is one of Northern Europe's most significant faculties for research and higher education in the humanities, theology and education. Within this broad academic scope, the faculty comprises approximately 700 researchers, 200 PhD students, 9,000 Bachelor's and Master's degree students, and 1,500 further and continuing education students. We believe that the best ideas arise when different perspectives meet – and that research, teaching and innovation are best developed in dialogue with the surrounding society.

You can find more information here: [Faculty of Arts | Aarhus University](#)

The application must be submitted via Aarhus University's recruitment system, which can be accessed under the job advertisement on Aarhus University's website.

Aarhus University

Aarhus University is an academically diverse and research-intensive university with a strong commitment to high-quality research and education and the development of society nationally and globally. The university offers an inspiring research and teaching environment to its 37,000 students (FTEs) and 8.700 employees and has an annual revenue of EUR 1.106 billion.
