

Student Assistant in Quantum Grants Administration within the Center for Hybrid Intelligence

We are searching for an organised and enthusiastic student assistant to provide support for these EU quantum grants. The main grant/ project you will aid in supporting, will be the European Quantum Academy (EQA), a pan-European initiative to coordinate quantum technology education and training across the continent.

Our Center lies in the center of this initiative since it is responsible for the coordination of 72 partners across the EU. This ambitious project will connect national programs, academic institutions, industry, and policymakers to address the growing demand for a skilled quantum workforce, covering the full QT education pipeline. It will also help develop shared standards, qualification frameworks, and incentive structures to drive coherence across a fragmented European landscape. If that sounds like an exciting opportunity you would like to be a part of, then this position might be for you.

Your responsibilities will include:

- Get familiar with how to use the EU's Funding & Tenders Portal, the grant management system used by the EU.
- Support communication between the center and grant partners and funders
- Coordinate the preparation of grant reports to funders.
- Collaboration and data processing agreements with partners.
- Support management of deliverables, partner financial audits, partner communication, resource preparation, and consortium agreement negotiation.
- Coordinate the collection of information requested for future EU grant applications.
- Helping with the preparation of papers, reports etc. requested by the European Commission.
- Assisting with ad-hoc tasks - such as manage meeting scheduling, note taking and following up on meeting actions

Applicants must:

- Be enrolled in a bachelor or master's degree program.
- Showcase strong organizational and communications skills
- Have experience in project management
- Be proficient in Microsoft Office, project management and AI tools
- Have an interest in Quantum research
- Be proficient in written English at a high level
- Work in a structured and independent way, with attention to both detail and the bigger picture.

What we offer:

- Highly relevant practical experience in EU grant administration and management.
- You will work closely with PhD students, postdocs and Professors which means you can grow your network and get experience in research grant administration and grant management.
- We are a young, interdisciplinary team that aims to create impact with our research. We provide a working environment characterized by respect, appreciation and collaboration.

Who we are

The Center for Hybrid Intelligence, located at the Department of Management at Aarhus BSS (Aarhus University), is an interdisciplinary team of researchers and practitioners from physics, computer science, human-computer interaction,

Application Deadline:
15 May 2026
