

Part-time IT-worker for the FLOCKD Research Project

Are you interested in working part time on the FLOCKD research project at the Department of Electrical and Computer Engineering?

The position is available from 1 October 2024 or by agreement.

Job description

- Contribute to development and implementation of solutions to improve vehicle performance.
- Utilize simulation environments to develop, test, and validate autonomous driving experiments.

Your profile

We imagine that you:

- Are good at working with a team of colleagues, also with a different disciplinary background.
- Are able to communicate both written and verbally in English.
- Have a positive and sociable attitude.

What we offer

- A well-developed research infrastructure, laboratory space and shared equipment
- An exciting interdisciplinary environment with many national and international colleagues at Aarhus University as well as national, international and industrial collaborators

Place of work and area of employment

The place of work is Finlandsgade 22, 8200 Aarhus N, Denmark, and the area of employment is Aarhus University with related departments.

Contact information

Additional information related to this position can be obtained by contacting Lukas Esterle, email: lukas.esterle@ece.au.dk.

Deadline

Applications must be received no later than 4 August 2024.

Formalities and salary range

The employment is subject to section 15 of the the collective agreement for IT employees (PROSA) in the service of the state the and LC/CO10-S (the Confederation of Teachers' Unions/the Danish Confederation of Public Employees of 2010) collective agreement.

Aarhus University's ambition is to be an attractive and inspiring workplace for all and to foster a culture in which each individual has opportunities to thrive, achieve and develop. We view equality and diversity as assets, and we welcome all applicants.

The application must be submitted via Aarhus University's recruitment system, which can be accessed under the job advertisement on Aarhus University's website.

Aarhus University

Aarhus University is an academically diverse and research-intensive university with a strong commitment to high-quality research and education and the development of society nationally and globally. The university offers an inspiring research and teaching environment to its 38,000 students (FTEs) and 8,300 employees, and has an annual revenues of EUR 935 million.
