

# Associate Professor of Proteolysis Research

The Department of Biomedicine at Faculty of Health at Aarhus University invites applications for a position as Associate Professor in the field of plasma proteolysis research as per 1 June 2026 or as soon as possible thereafter. The position is a full-time position for two years.

The department of Biomedicine prioritises diversity and a good work environment, as this is a prerequisite for groundbreaking research. In a diverse and international research environment, dedicated employees are looking to generate new knowledge within biomedical research areas such as infection and inflammation, membranes, neuroscience and personalised medicine. The Department of Biomedicine provides research-based teaching of the highest quality and is responsible for a large part of the medical degree programme. Academic staff contribute to the teaching. English is the preferred language in the laboratory, at meetings and at seminars. The department employs approx. 500 people from all over the world, and they make use of the department's modern laboratory-, core- and animal facilities. The Department of Biomedicine focuses on innovation, entrepreneurship and collaboration with business and industry, and numerous researchers from the department have established companies to develop new medicinal treatments founded in professional scientific basic research. You can read more about the department [here](#) and about the faculty [here](#).

## Your job responsibilities

As Associate Professor of Proteolysis Research, you will contribute to the department's research and teaching environment and to the faculty's overall research strategy. You will contribute to the development of the department both individually and in collaboration with others via your research of high international quality. You ensure that your teaching maintains a high academic and didactic standard. You possess professional collaborative skills and a broad academic network which you are able to bring into play in your contribution to the academic development of Aarhus University and its profile both nationally and internationally.

Your main tasks will consist of:

- Research of high international quality, including publication in top international journals and communicating your research in national and international academic networks.
- Teaching and supervision of Bachelor's and Master's degree students and contribution to the development of new teaching activities.
- To contribute to the funding with the help of external research funding.
- Supervision of PhD students and contributing to the development of the faculty's PhD courses.
- Involvement in assessment and committee work at Aarhus University.
- Dissemination of your research to the outside world.
- Pursuing potential commercialization of research results.

You will report to the Associate Professor Markus Rinschen.

## Your competences

You have established yourself as a prominent researcher within plasma proteolysis research and you possess documented solid research and teaching qualifications at a high international level. You have broad international cooperative partnerships and experience of research partnerships with private and public-sector stakeholders, and you have potential of becoming a skilled group leader. At the same time, you have experience of attracting significant research funding from national and international funding bodies. We draw attention to a stay or employment at at least one internationally recognised research institution. Extensive knowledge of mass spectrometry-based high-throughput proteomics and N-terminomics is required. Additionally, a proven track record of handling complex research cooperations with industrial and/or academic researchers would be a plus.

As a person, you are dedicated and a skilled communicator. You are able to build relationships based on trust with students, colleagues and partners. As a lecturer you communicate the newest and relevant knowledge in a committed, clear and

comprehensible manner. As a supervisor you are professional, inspiring and inclusive.

You are ready to take co-responsibility for the development of the department's research and education at the highest international level and for ensuring that we maintain a good work environment. You naturally involve yourself in interdisciplinary collaboration at departmental, faculty and university level as well as nationally and internationally.

We expect you to be fluent in oral and written English. International applicants are expected to learn Danish, and Aarhus University arranges Danish teaching.

In order to be assessed as qualified for an Associate Professor position, you must meet [these academic criteria](#).

Shortlisting will be used.

#### **Questions about the position**

If you have any questions about the position, please contact Associate Professor and group leader Markus Rinschen [rinschen@biomed.au.dk](mailto:rinschen@biomed.au.dk), tel.: (+45 22 15 20 61).

Your place of work will be the Department of Biomedicine, Høegh-Guldbergs Gade 10, DK-8000 Aarhus C, Denmark.

We expect to conduct interviews at the beginning of 2026.

#### **Terms of employment**

- Appointment as an associate professor requires research and teaching qualifications at the level that can be achieved through the satisfactory completion of a period of appointment as an assistant professor, but may also be obtained in other ways.
- The applicant is required to have completed a university pedagogical programme or an equivalent programme.
- Further information on the appointment procedure can be found in the [Ministerial Order on the Appointment of Academic Staff at Universities](#).
- The appointment is in accordance with the [Danish Confederation of Professional Associations](#) (Akademikerne).
- Remuneration is in accordance with the above, and the [Salary agreement catalogue for staff at Health](#).
- The yearly base salary for a fulltime associate professor is DKK 650.004,18 (including a position related supplement, a pre-agreed associate professor supplement and pension (17.1%)). Additional supplement(s) can be negotiated dependent on experience, special qualifications and performance of special functions. Authorisation supplement(s) will be granted, if relevant for the position. Your local eligible trade union representative at Aarhus University negotiates your salary on your behalf.
- Researchers recruited from abroad are offered a [special researcher tax scheme](#) with a lower tax rate.
- Travel and moving expenses may be covered according to the employee in question and, to a limited extent, the accompanying family.
- Further information on qualification requirements and job description can be found in the [Ministerial order on Job Structure for Academic Staff at Universities](#).

#### **Application**

Your application must include the following:

- Motivated application
- Curriculum Vitae
- Diploma

- [Template for applicant - associate professor](#)
- A list of publications
- A teaching portfolio. We refer to [Guideline on the use of teaching portfolios](#)
- The five publications stated as the most important in the 'Template for applicant - associate professor' must be submitted
- Research plan, which is part of the 'Template to applicant - associate professor' can be uploaded separately (optional)
- Coauthor statement(s) can be uploaded (optional)
- References/recommendations can be uploaded separately in the e-recruitment system (optional)

We refer to the faculty's [Guidelines for applicants](#).

Aarhus University's ambition is to be an attractive and inspiring workplace for all and to foster a culture in which each individual has opportunities to thrive, achieve and develop. We view equality and diversity as assets, and we welcome all applicants.

#### **International applicant?**

Aarhus University offers a broad variety of services for international researchers and accompanying families, including assistance with relocation and career counselling to expat partners. Please find more information about the International Staff Office and the range of services [here](#).

*The application must be submitted via Aarhus University's recruitment system, which can be accessed under the job advertisement on Aarhus University's website.*

#### **Aarhus University**

*Aarhus University is an academically diverse and research-intensive university with a strong commitment to high-quality research and education and the development of society nationally and globally. The university offers an inspiring research and teaching environment to its 38,000 students (FTEs) and 8,300 employees, and has an annual revenues of EUR 935 million.
